Philadelphia  
June 9, 1950

My name Ruth A. Applegate. I live 357 N. Rolling Road, Springfield Delaware Co., Pa., and I am a library assistant at the Franklin Institute Library 20<sup>th</sup> Street and The Parkway, Phila. I make this statement willingly to William B. Witte and Robert W. Holmes who have identified themselves to me as Special Agents of the F.B.I. They have told me I may be required to testify to the information contained in this statement. I have been shown photographs of two men whom I recognize as Harry Gold and Thomas L. Black. I know these men as members of the Franklin Institute Library. I have seen these men at the Franklin Institute Library on many occasions, sometimes together and more often singly. I cannot recall the exact dates when I have seen them together.

2.  
at the Library but I remember definitely that I saw them side by side at the same table in the fall (October & November) of 1949. I recall that because it was during the foot ball season I was joking with hors. Paul & Miss Farley who also work here, also the Black and Gold combination. That is the last time I definitely remember seeing them in the Library together. On other occasions up to recent past I have seen or or the other in the Librar but cannot say positively if they were here at the same time, although they may have been. I have seen Paul and Gold talking with each other in the Library.

I have read these two pages and find them correct to the best of my knowledge.

Description: Signal Statement

File No. 65-4332-1B-(9)

Philadelphia, Pa.

June 9, 1950

I, Virginia Farley, make the following voluntary statement to Robert W. Holm and William B. Welte Jr. who have identified themselves to me as Special Agents of the Federal Bureau of Investigation. I am willing to testify in court to the following information.

I am an employee of the Franklin Institute Library and have been employed part time since 1944 and full time since 1948.

I have been shown photographs of two individuals whom I can identify as being Harry Gold & Thomas Black. I have seen both Gold and Black at the Library on many occasions individually. I have observed on a few occasions that Gold and Black were in the Library at the same times. I do not recall having seen them speaking to each other but I do recall that during the past several years they were here at the same times. They were usually here

in the evening. I recall that we use to joke and would say "Black and Gold in the back room, hurrah for Princeton". Black always sat in the back room. Gold would sometimes sit in the back room and sometimes in the main reading room. The back room is so situated that we at the desk cannot see what transpires in that room. I do recall that Black and Gold were in the back room at times together. To the best of my recollection it was in the latter part of this past winter that I can recall seeing Black & Gold here together as it was dark in the early evening.

I have read this statement, consisting of this and one other page, and it is true to the best of my recollection.

Philadelphia, Pa.

June 9, 1950

I, Helen Rauh, make the following voluntary statement to Robert W. Holmes and William B. White, Jr., who have identified themselves to me as Special Agents of the Federal Bureau of Investigation. I am willing to testify to the following facts:

I am employed as a library assistant at the Franklin Institute Library, and have been employed there since September 1947.

I have been shown photographs of individuals that I can identify as being Mr. Gold and Mr. Black. I have identified each photograph with the name of the individual as I knew him and my initials which are "H. V. R."

I can recall that on a number of occasions that Gold and Black were in the library at the same time. We girls at the desk would refer to them as "Black and Gold, the Princeton boys in the back room." It was last September, 1949, that this

was

nickname started. It was at this time that I noticed that Black & Gold started going into the back room.

I recall that Black would come into the library early and would appear to take a position whereby he could sit and watch all who came into the library. He customarily request a British patent or journal. He never was concerned with the material and gave the appearance of simply waiting for someone. If he asked for a certain patent which we did not have, he would sometimes just sit & wait, as if ~~waiting~~ for someone. When Gold came in Black & I went into the back room. Gold would submit his requests, pick them up and go into the back room. Gold would always take the table beside the one used by Black and not the same table. I have observed Black and Gold speak to each other upon arrival, but when seated at main desk in the library I could not tell if Black or Gold would converse or not.

REWH

Deane V. Roub 6/9/50

This procedure was followed until approximately three weeks prior to Gold's arrest. Black upon arriving at the library would go immediately to the back room. I could see that Black just sat there and did nothing. When Gold arrived, he made his requests and then went on to the backroom. I recall that the publicity of Gold's arrest was in the papers on Wednesday morning May 24th.

I recall that on about 10<sup>40</sup> A.M. on Saturday May 20th, Mr Gold called and asked for Mr Black. I answered the telephone. I told him that Mr Black was not in the library. He said "Have Mr Black call Mr Gold at" and then he gave me a telephone number which I cannot recall other than the fact that the first digit was an 8. I went to lunch between 11<sup>30</sup> and 1<sup>15</sup> noon. At 10 minutes to 2 I realized that I had the telephone message for Mr Black and that Mr. Black was then in the back room. I took the

message right back to Mr Black and recall saying "better late than never" as I handed him the message. Mr Black was just sitting there at the time and had no research material in front of him. He appeared to be just waiting. When I gave Black the message, he smiled and got up and left.

There was no definite pattern to Gold & Black meeting at the library. Some they would meet at short intervals and sometimes long intervals.

The last time that I saw Mr Gold at the Franklin Institute Library was the Thursday night prior to his arrest.

I have read the statement consisting of this and three other pages and is true to the best of my knowledge and belief.

I, Mary E. Gallagher, make the following statements to Robert W. Holmes and William B. Welte Jr. who have identified themselves as Special Agents of the Federal Bureau of Investigation. I am willing to testify to the following facts: I

I have been employed as a library assistant at the Franklin Institute Library since Aug 1949.

I have been shown photographs of individuals whom I can identify as Mr Thomas J Black and Harry Gold. I know Black as Doctor and Mister.

During the past three months I can recall seeing Black and Gold in the library at the same time. The times that I can recall seeing them together has always been in the back room. On

some of the occasions that they were here together, I recall that they

occupied the same table. I cannot say that they conversed. Sitting in the back room would not keep them in view of the girls at the front desk. Much of my time was spent going into the stacks to get books.

I have read the above statement consisting of this and one other page and it is true to the best of my knowledge and belief.

Black & Heller discussed going into  
business for self and giving loans  
carefully checked

Heller would take chemical one page  
up to Black - don't know if  
turned over - would let  
Black go through -

these trips continued on up to two  
of separation in 1945 - Heller  
made many visits by himself

Black came to meet at Heller's room  
was in 105 E. Green Ave.

Heller & Black discussed at  
Penn State - by way  
acquaintance - H. good for  
Penn State

never able to figure out why  
told of working at Berg Laboratories  
Phila & living in Phila  
in a hotel -  
quite considerably about 2 H - nothing  
very complimentary

too not interested in the Heller

Plain Heller would discuss nature  
+ with regret. Companies were  
doing — do recall that Black &  
Heller exchanged many formulas  
with each other — that related  
to field in each was working  
work of each was not related  
as Black was regime

~~believed that elements from common~~  
background — idea of possibly  
going into business for paper

never had capital to start  
business — neither one was  
practical or a business man

~~was~~ Black is screwball —

I got black cross — had pen & place  
of something but not real — got in  
bath tub —

did not think — never saw  
company of women —

"John" - 19. or 20 - (1942)

left Black to go into army —  
Jewish 5'10", — dark hair, swarthy couple  
came from large family (many brothers)  
not a chemist, rather ignorant —  
there rather infrequently and only  
then for short periods in 1942 —

Black & F. H. would exchange chemical  
formulas what they were doing  
and what their comrades were  
doing —

Recall F. H. lent or given Black money  
do not know why —

in 30s - Black had pro-communism  
ideas — discussed Marx-Leninism  
F. H. - would discuss various phases of  
communism  
(in 40s told her he no longer  
had feelings along that  
line)

I Heller lives in Greenwich Village where  
graduated from Penn State —  
— met radical groups & were  
easily led —

recalled Black + Heller discuss

Antony —

— ~~intentionally~~ ~~found out what~~  
~~info Antony wanted~~ —

— wanted to find out what ~~Antony~~  
~~wanted for~~ —

— not part of their scheme &  
go into ~~business~~ —

— vague recollections that  
chem formulae that they discuss  
were to be somehow in  
connection with Antony —

— do not recall either Antony  
ever in touch with anyone

Black's statement concerning  
to voluntary custody  
File No. 65-1332-1B26

Philadelphia, Pennsylvania  
June 15, 1950

I, THOMAS L. BLACK, 1929 North 6th Street, Philadelphia, Pennsylvania, having information that I desire to furnish voluntarily of my own free will to Special Agents of the Federal Bureau of Investigation, have asked them to make arrangements so that I can furnish this information to them over a period of time which may take several days, so that I can remain with them until I have furnished all the information of mutual interest in my possession.

I do this of my own free will and no threats or promises have been made to me.

*William B. Welby, Jr., S.A., F.B.I.*

*Robert W. Holmes, Special Agent F.B.I.*

June 16, 1950

On June 15, 1950, I, THOMAS L. BLACK, 1929 North Sixth Street, Philadelphia, Pennsylvania, gave authorization to search to Special Agents WILLIAM B. WELTE, JR., and ROBERT W. HOLMES of the Federal Bureau of Investigation, United States Department of Justice, for search of my property located at the VAN POZNAK STORAGE WAREHOUSES, 92 Howard Street, Newark, New Jersey. Special Agents LOUIS G. TURNER and JOHN R. LYONS were specifically designated to conduct the search.

In view of the volume of material in storage, and to expedite the search, I hereby authorize the Federal Bureau of Investigation to use as many additional Special Agents as it deems necessary to conduct the above search.
